With but three days left in which to wind up the final skirmish, the Reds. Elues and Scouts will make a grand rally and bend all efforts toward achieving a great finish. The race in friendly competition among the three armies, to see which can secure the largest number of new members, will be neck and neck, and until the final count has been made at midnight Saturday, no one can say which army will earry off first laurels.

For Final Onslaught.

The closing efforts of the campaign centered upon Commercial club day, for which tomorrow, has been set apart. The best "fighters" of the three armies, and all club members who can arrange, will meet at the club to-morrow morning at 10 o'clock. A short mass meeting to outline plans for the day will be held, and then Brig-ndier General Wesley King will give

Goal Is in Sight.

Throughout the forenoon an incessant war for new recruits will be waged, not only in the business center but in all corners of the city. A membership rally will take place at the club between 12:30 and 1:30 o'clock after which the battle will be renewed. No rest will be known until victory has been won, which means a total membership of 1700. It is expected that when final count is taken of the applications, the enrollment will exceed the goal by a good margin. Saturday at midnight the admission fee for resident members will be doubled to \$50 and will remain thirs. and will remain there.

While all the staff and regiment of cers have worked faithfully and enerretically throughout the campaign, B. W. Mendenhall, colonel and chief of staff, has made himself conspicuous during the closing days of the last ermish, and deserves especial mention. Osear L. Cox was named yester-day to act as lieutenant colouel of the Blue regiment, in place of Malcolm McAllister, who is now attending the convention of the American Associa-tion of Ad clubs in Dallas, Tex. Mr. McAllister established a record for up until his departure.

On motion of Commissioner Richard P.

the city recorder was instructed to authorize the publication of notice in the
daily papers.

The delegation, conducted by Attorney
Carl A. Badger, was composed of H. S.

the Keith-O Brien company, Louis Terry.
C. W. Johnson of the Houston Real Estate & Investment company and Mark

The commissioners were entirely willing to meet the views of the delegation and postponed action only that possible objections to the change of name may reach the commission before final action is taken. Should no objection be made the change will be ordered and at the same time a little street in the north-castern section of the city which rejoices in the name of "Broadway" will be changed to avoid possible confusion in the duplication of names.

in the name of "Broadway" will be changed to avoid possible confusion in the duplication of names.

Commissioner Henry W Lawrence, the Socialist member of the city commission, is unalterably opposed to the purchase by the city of automobiles for the use of city employees and registered a negative vote yesterday on the proposition of purchasing a machine for the use of W. J. Tuddenham, supervisor of streets. In a communication to the comission Supervisor Tuddenham pointed out that he has 250 miles of street to oversee and the use of a machine is essential. The commission voted to expend from the appropriation for the street department a sum not to exceed \$2100 for the purchase of an automobile. Mr. Lawrence suggested that the street supervisor share with the superintendent of the water department the use of the new car recently purchased for the latter department, but Mr. Korns declared that the car was in constant use and could not be shared. Regarding this state as presenting exceptional opportunity for observing progress in irrigation, Mr. Nielson will devote some days to the study of such projects here. It is his mission, too, to cultivate larger trade relations between this country and his own. In pursuing this object he makes inquiry into the special products of different sections of the country and devises means for an interchange of such outputs with special productions of New South Wales.

Farticularizing as to Utah, the state's special supply to New South Wales is in the apple line. Much of this fruit raised here, he says, finds its way to his own country, but he is constantly in search of other products by means of which to expand that trade. Government irrigation projects in Utah are to be studied by Mr. Nielson, as such projects elsewhere are made objects of scrutiny. Out of his study of irrigation in this country he gathers facts and information which will prove to be of assistance to the government of New South Wales in fostering irrigation enterprises.

Assurance was given by Mr. Nielson to Secretaries Hooker and Becker that

INJURIES OF BURNO ARE FOUND SERIOUS

X-ray examination yesterday revealed that Tuffield Burne, who was struck Monday by a street ear at the fall grounds, was more seriously injured than grounds, was more seriously injured than was at first presumed. Burno was taken to the L. D. S. hospital yesterday and subjected to the X-ray examination. It was found that his right arm was completely out of the socket and the bones of the arm broken in several places. Being of a stout build, Mr. Burno's injuries were not peoceived at the time of the accident, and he was taken to his home. 518 East Third South street, suffering only from bruises, it was supposed.

Mr. Burno was waiting for a car at the falv grounds loop. The car failed to stop, and as he was standing too close to the track the car struck him, hurling him to the ground.

The Salt Palace grounds have received added beautification this spring, the buildings have been furnished up and repainted to attractiveness, and the place offers a cool retreat within easy reach by street cars every ten minutes.

Canyons Attractive.

Many Sait Lakers will go into the canyons. City Creek canyon is magnificant at this time of year, with its grasses, trees and shrubhery in deepest dreen, and the rushing stream rouring down the gulch. Warning is given that the water in the creek is high at this cosson of the year, and that persons taking children must be careful to keep them away from the stream. Cottonwood, Parley's and Emigration canyons afford opportunities for splendid mountain road this in authorbiles, and doubtless many autorists will avail themselves of these.

There ought to be no difficulty about finding some pleasant rhace to go to nor about Sait Lake for spending an enloyable day. With road weather prevailing, all of them will be fully patronized today.
